Iterative sorting!

ITERATIVE WHICH ALGORITH IS BETTER?

BUBBLE SORT SELECTION SORT

Selection is faster

BUBBLE SORT TOOK MORE TIME SELECTION SORT

BUBBLE SORT IS VERY COMPARE SELECTION WHICH ALREADY SLOW

IMPROVING BUBBLE SORT?

Adding a flag

You can add a flag for the sorting to stop when there where no swaps

Did it work?

It only really improves if the array is already sorted.

Becomes: 0(1)

SO, SHOULD I BE USING BUBBLE SORT?

THERE ARE OTHER EASY TO IMPLEMENT ITERATIVE ALGORITHMS, BETTTER USE THOSE

HOPE YOU LEARN SOMETHING
